RapidStow Inflatable fenders with "Rapid Deflation System" for quick storage.

Inflatable Fenders

Ribcraft bespoke design and manufacture inflatable fenders. Inflatable fenders are ideal if you require a large fender which takes minimal space on board.

Usage

Inflatable fenders can be quickly deployed, inflated with either a standard foot pump, electric inflator or onboard airline, they're ready to use in minutes.

Construction

To insure the highest quality, Rapidstow inflatable fenders are made using Hypalon®, the leading material in the industry. As the only proven and time-tested material, Hypalon® has incredible resistance to abrasions, chemicals such as fuel oils, mechanical stresses, UV damage, and extreme temperatures. Furthermore, Hypalon® is easily repaired even after years of service.

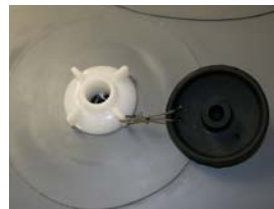

Applications

Whenever you require maximum storage space on board, ideal for large yachts and Super Yachts

Rapidstow System

The Rapidstow system is unique to our fenders. It allows you to quickly deflate the fender for quick stowage and departure.

Standard Fittings

Rapide Deflate Valve

S/S Rotating Eyelet
